"Yucca Mountain Draft EIS"

URSULINE SISTERS OF KIRKWOOD
353 SOUTH SAPPINGTON ROAD
ST. LOUIS, MISSOURI 63122

RECEIVED

FEB 03 2000

I am Sr. Julie Hickey, community administrator, for the Ursuline Sisters at 353 South Sappington Road in Kirkwood, Missouri. I recently attended the Public Hearing held in St. Louis, Missouri regarding the proposed transport of nuclear waste to Yucca Mountain.

- 1 [Since our property adjoins the railroad tracks directly on the south side of our property line, we are concerned.

- We are not only concerned for our community, our students and as stewards of our land---we are concerned for all people who would be impacted by the decision to transport nuclear waste by rail to Nevada. We ask the Department of
2 Energy to consider other options for the storage of nuclear waste. Please consider renewable energy alternatives for the future of our planet
